

Moving2Valencia — Award-Winning Website Mockup

A premium, award-winning website redesign for Moving2Valencia.eu, a relocation services company based in Valencia, Spain.

Live Demo

Open `index.html` in any modern browser, or deploy to GitHub Pages / Netlify / Vercel.

File Structure

```
├─ index.html      # Complete single-page website (HTML + CSS + JS)
├─ README.md       # This file
```

Note: This is a single-file website. All styles and scripts are embedded — no external dependencies except Google Fonts and the image CDN.

Design System

Token	Value	Usage
--terra	#C45C3E	Primary brand color, CTAs
--terra-dark	#A3472D	Hover states
--terra-light	#E8A88A	Accents, gradients
--mediterranean	#2E8B8B	Secondary accent
--valencia-orange	#E8913A	Warm highlights
--cream	#FAF6F1	Section backgrounds
--warm-white	#FFFDF9	Card backgrounds
--charcoal	#2C2420	Primary text, dark sections
--stone	#6B5E56	Secondary text
--sand	#E8DDD3	Borders, dividers
--gold	#C9A84C	Stars, trust signals

Typography:

- **Headlines:** Cormorant Garamond (serif, elegant)
- **Body:** Inter (sans-serif, modern)

Responsive Breakpoints

Breakpoint	Layout Changes
> 1024px	Full desktop: 3-col services, 3-col pricing, side-by-side hero
768-1024px	Tablet: 2-col services, stacked pricing, single-column hero
< 768px	Mobile: single column, hamburger menu, full-width CTAs

Features

- **Scroll-triggered animations** — Elements fade in as you scroll

- **Sticky navigation** — Glassmorphism effect on scroll
- **Mobile hamburger menu** — Smooth slide-in overlay
- **Floating cards** — Animated trust signals in hero
- **Pricing transparency** — Three clear tiers with “starting at” pricing
- **Image hover effects** — Subtle zoom on service cards
- **Accessibility** — Semantic HTML, aria labels, focus states

Image Sources

Images are loaded from external URLs for the mockup. Before going live, replace with:

1. **Licensed stock photography** (Shutterstock, iStock, Adobe Stock)
2. **Original photography** of Christa in Valencia (recommended)
3. **Unsplash/Pexels** free alternatives

Recommended Photography Budget

- **€800–1,500** for a professional Valencia shoot
- Christa in 3–4 iconic locations
- 2–3 real apartment interiors
- Candid lifestyle shots

Deployment Options

GitHub Pages (Free)

1. Push this repo to GitHub
2. Go to **Settings** → **Pages**
3. Select branch: `main`, folder: `/` (root)
4. Site will be live at <https://yourusername.github.io/repo-name/>

Netlify (Free)

1. Drag & drop the folder into [Netlify Drop](#)
2. Instant live URL + automatic HTTPS

Vercel (Free)

1. Import repo into [Vercel](#)
2. Framework preset: **Other**
3. Deploy instantly

Before Going Live — Checklist

- Replace all placeholder images with licensed/original photography
- Update pricing to match Christa’s actual packages
- Add real testimonials with client photos (with permission)
- Connect “Book a Call” buttons to Calendly/HubSpot
- Set up “Download Checklist” lead magnet with email capture
- Add Google Analytics 4 tracking code
- Install Hotjar for heatmaps

- Test on iOS Safari and Android Chrome
- Run Lighthouse audit (target: 90+ on all metrics)
- Add Open Graph meta tags for social sharing
- Create a `robots.txt` and `sitemap.xml`
